DrillAmerica® 1903 Springfield Replica Rifle

Beauty, balance, and authentic tone.

With the look, the feel and even the sound of the revered 1903 Springfield rifle, this highly detailed replica will take your drill team, honor guard or color guard to the next level. Known for both its beauty and balance, the 1903 Springfield is the functional equivalent of the drill rifles issued to each service, but with better balance, durability, and quality! Our DrillAmerica® 1903 Springfield is 43.3" long, weighs in at 8.5-8.6 lbs., and is made of the same tough, scratch-resistant high-impact resin as our DrillAmerica® M1 Garand.

What sets our DrillAmerica® 1903 Springfield Replica Rifle apart:

- Better balance: Bolt and 24" barrel are one continuous piece, distributing weight across the rifle for exceptional balance.
- Exceptional sound: The multi-component rifle has a bit of a tone when you slap or spin it and just enough give when you catch it. You'll appreciate its moving bolt for Inspection Arms.
- Superior durability: We went back to the 1903 original to capture the untouchable strength and toughness of its rear end swivel.
- More authentic look: The beautifully detailed appearance, the serialized bolt, and the black metal parts (also available in chrome) mirror the look of the 1903 original.
- Additional options: Vulcanized butt plate and sling sold separately (accepts any Glendale sling except the MK1 Parade Rifle Strap)

Introduce your team to the 1903 Springfield today and experience for yourself its precise center balance and outstanding sound.

DrillAmerica® M1 Garand Replica Rifle

Exceptional balance and quality

The overwhelming choice of drill teams, honor guards and color guards. The M1 Garand features a solid barrel which provides balance and durability. The front and rear swivels are reinforced and more durable than ordinary drill rifles so the M1 Garands can take anything you throw, (or spin) at them. Weighs 9 lbs. Features include a moving bolt to enable Inspection Arms, a trigger that "clicks" for effect, a reversible black rubber butt pad and a metal butt plate. Made of high-impact plastic with a wood-grain appearance, exterior chromed metal parts and a solid barrel. Approved for all JROTC competitions as a demilitarized weapon. Does not have bayonet lug. Length 43". Accepts any Glendale web or leather sling (not included).

All bolts can be engraved on one line, 24 characters maximum. We present the DrillAmerica® M1 Garand with pride. Use it wisely and well!

DrillAmerica® MK1 Replica Rifle

DrillAmerica® makes the best drill rifle you can buy. Period!

When you’re competing, you need enough mass to spin and enough sass to win. The MK1 rifle is weightier, sturdier, and, frankly, classier than other Mark 1’s—and easy on the wallet! Molded from high-impact resin for greater durability, the MK1 uses chrome-plated, non-moving parts and borrows its sturdy, durable metal front band and hardware from our most expensive rifles. 39” Long and roughly 4.3 pounds, which makes it a superior drill rifle for spinning. Can be fitted with any of our leather or cotton web slings.

MK1 Masters Level Replica Rifle

MK1 Masters Level Replica Rifle

An emerging legend in precision performance

"Back in the day", explained Michael M. Anderson, 1SG, USA (Ret.) and leader of the perennial champion Heights High School "Rough Riders" from Houston, Texas, "the Mark 1 Drill Rifle we had been using suffered from a number of deficiencies. They were underweighted, fragile and the quality was inconsistent. Our drill team went through stacks of them every year. That all changed when we met Joe Rivas from the Glendale Parade Store."

1SG Anderson told Joe that the MK1 needed some upgrades to earn the loyalty of people who spin heavy weapons. Joe listened and went to work with a respected drill rifle manufacturer. Here's what they did.

Heavier, more durable construction -

The MK1 Masters Level weighs 5.5 lbs. (a full pound heavier than our standard MK1). The stock is made from high impact resin to add weight and be nearly indestructible.

Full heavyweight barrel - The addition of a full-length metal barrel adds heft and improves the rifle's balance, so it makes spinning effortless.

The result? "We were so impressed with these rifles that we entered competitions using the prototypes that Joe sent us. The fact that we did says all you need to know about how great these rifles are. I placed an order for our whole team as soon as they were available."

Full Size, Half the Weight 100% DrillAmerica®!

Building a Reliable Parade Rifle, One Test at a Time

Drill America® is more than a name, it is your guarantee that each rifle is the best you can buy. When we developed the Drill America DA30 Parade Rifle we made sure that it would deliver the consistency of weight and appearance that alternative arms drillers need to train effectively. Our high-impact resin parade rifle passed all of our quality tests—but we knew who the real experts were. We sent our rifles out to schools to be field-tested by numerous drill teams. Reports from the field helped us make a good rifle even better. Drillers told us to eliminate the front-stacking swivel and lower the screw-head profile to reduce risk of cuts. They asked us to improve the stiffness of the bolt spring so it wears better. Our testers told us what they wanted. We listened. And together we created a reliable drill-tested rifle perfect for practice and parades.

Drill America® DA30 Parade Rifle

Just a few ounces either way can change the feel and performance of a drill rifle, something drillers quickly learn as they train. Wooden parade rifles can vary in weight by almost half a pound. The Drill America® Parade Rifle, a replica of the 1903 Springfield, lets drillers train with a full-size (42") high impact resin rifle that, at 4.2 lbs., is exactly half the weight of our other Drill America® rifles. Great for parade use and Alternative Arms Drillers. Built to last, these rifles won't fade, crack or discolor over time. Field-tested by school teams, who helped us make this parade rifle a winner. With nickel-plated barrel and bolt, rubber butt plate, operating bolt action and clicking trigger. Includes a black nylon web rifle sling with nickel hardware. No bayonet lug.

Tape Your Drill Bar for Better Training!

Your DrillAmerica Drill Bar (page 14) is a great addition to your training regimen! To get the best results, you'll want to make a few key markings on the bar to help build your muscle memory during practice!

NOTE: Your Drill Bar is NOT designed as a substitute for a rifle when LEARNING how to spin. You should ALWAYS learn your techniques on a drill rifle FIRST before using the Drill Bar to build strength & endurance. Glendale Parade Store is not liable for damage due to misuse or substitution for a drill rifle with inexperienced drillers!

Materials Needed:

- Drill Bar
- 3M® Super 88 Black Electrical Tape
- 3M® Super 35 White Electrical Tape
- 3M® Super 35 Colored Electrical Tape (Any color will do!)
- Scissors
- Any Drill Rifle (Our DA1903 would be perfect!)

Step 1: Tape the End Caps

Your Drill Bar comes with 2 rubber end caps. Put them on each end of the bar and affix using the black electrical tape making sure to cover EVERY INCH of the end cap. Wrap this black tape down at least 2 inches below the end cap onto the bar. Use at least 2 layers on each end.

Step 2: Tape Key Positions

Lay your Drill Bar and drill rifle on a flat surface so that the butt of the rifle is aligned to the end of the Drill Bar. Using white electrical tape, mark precisely the following spots:

- Small of the Stock (Just below the metal of the receiver!)
- Mid-Balance Point (Just above the metal of the handguard ring!)
- Stacking Swivel (Just below the lug!)

These are the key contact points for all Regulation Drill rifle manual movements and will assist you in finding the correct positions for your hands as you train!

Step 3: Tape Supporting Positions

With your Drill Bar and drill rifle still aligned, identify any additional positions for the hands you might find important during Exhibition Drill. These positions might include:

- Just Below the Mid-Swivel Band
- Half-Way Between the Mid-Swivel & Lug
- Edge of the Butt Plate

When you train, you can use these marked points to help build the precision required of your Exhibition Drill! Make sure to train precisely for maximum benefit!

For a full video tutorial of this process, visit bit.ly/drillbar.

Happy drilling!

Please Note:

Rifles are NOT RETURNABLE.
Before ordering a quantity of rifles, we suggest ordering a single piece for your examination to be certain it meets your requirements.
Rifles Cannot Be Guaranteed Against Breakage.
You will spin them, throw them, pound them and drop them. Wooden rifles are prone to breakage. For a more durable option consider our DrillAmerica Rifles. They are built really tough, and while we can't guarantee you won't break them, it won't be easy.

Magnetic 22 Gun Rotary Gun Rack

Keep drill rifles tidy and easy to reach. This magnetic gun rack rotates around a 30" pedestal, and securely holds up to 22 rifles in only 30" of floor space. Reduces unnecessary damage and teaches respect for the rifles. Turn any corner into a showcase.

Since 1883, Weyersberg, Kirschbaum & Co. (WKC) has manufactured swords and cutlery of impeccable quality in Solingen, Germany, a city famous since the middle ages for its metal-working and craftsmanship in sword making. Today, as the oldest and largest sword manufacturer in Germany, this family-owned business is the leading supplier to military schools and services worldwide. The WKC sword and scabbard are still handmade by skilled sword assemblers and weapon polishers. Even the detailed damascened ornaments of the blades are still etched by hand! No wonder WKC ceremonial swords are worn with pride by U.S. military academies, heads of state, kings and princes, ministers of defense and chiefs of police. Glendale is proud to offer these precision swords and sabers to our customers. Returns for other than defects will be subject to a 15% restocking charge. Engraved Swords can not be returned.

Sabers & Swords

Sizes available on sabers and swords: 28", 30" and 32" blades. All sabers and swords are handcrafted and include scabbards. The Army Saber is carbon steel, nickel plated. All others are stainless steel.

How to wear a Sword or Saber

Sword

What You'll Need to Wear Each Saber or Sword

For the Army Saber, Navy Officer and Coast Guard Officer Sword:

Start with a saber sling (#105 or #107 on page 19) or attach a #676 saber guard to any leather belt up to 2 1/4". Add the #673 saber chain by hooking the top clip of the saber chain onto the metal clip of the saber guard. The top hook of the saber chain holds the top ring on the scabbard. The lower clip holds the lower ring on the scabbard.

For the West Point and Air Force Sword:

Start with a sword sling (#101 or #106 on page 19) or attach a sword throg (#679 or #680) to any leather belt up to 2 1/4". Insert the scabbard down through the keyhole until the hook is secured.

For the Marine Corps NCO Sword:

Attach the sword throg to any leather belt up to 2 1/4". Insert the hook on the scabbard into the keyhole of the #683 throg.

Mourning Knot:

The #8142 USMC Mourning Knot on page 19 may be worn with any branch of service saber or sword.

The catch was perfect!

Catch Needs to Be Perfect

When a secure hold is a matter of honor, when each slip means a demerit, it's time to graduate to our sure-grip gloves (page 21). While we offer a wide assortment of gloves for every need, our Sure-Grip Flag Bearer Gloves are a clear customer favorite for top competitors.

And for good reason. First and foremost, the patented dots spread over the palms and between the thumb and index fingers and the small and ring fingers secure your grip. Because the gloves are breathable 100% cotton, they stay cool and comfortable even on the hottest of parade grounds. Wrist grips keep them precisely in place. Double reinforcement makes them tough.

To be a top competitor, you need the right equipment. Don't overlook the importance of the right gloves!

SURE-GRIP

Sure Grip Gloves feature patented patterns of rubber-like dots on the fingers and palms to give you the extra grip needed to perform exacting maneuvers with confidence and precision.

Infantry Style Shoulder Cords

For color brilliance, thickness, smoothness, strength, and weight, we really do have the finest cords made in the United States! Each cord — braided, knotted, and sewn by hand — is a true testament to quality and craftsmanship. Because the same U.S. factory both creates the braid and makes the finished cord, our customers are assured of consistent top quality year after year.

The button loop-style is designed to be worn with an epaulet that unbuttons. The open-end style with hook-and-eye closure is designed for epaulets that do not open. The wrapped pin attachment style can be worn on uniforms or shirts without epaulets or with epaulets that unbutton.

Mourning Shoulder Cords & Cord Add-Ons

Mourning Cords

This shoulder cord is the start of a new tradition for funeral honor guards. It was designed by a member of a police honor guard and, like all Glendale shoulder cords, is handcrafted in the U.S. The funeral honor guard stands at attention – a mourning band covers each member's badge. Each uniform also displays a unique mourning shoulder cord – black with a thin blue line for police, black with a thin red line for firefighters, black with a thin green line for EMS. It's a finished, distinctive and respectful look.

These cords generally have a 28" circumference. They can be custom-made in two longer lengths. Add \$5 to the price for an additional 5" and \$8 for an additional 10". Then, add the length to the number -- for example, #4521106X5 or #4561107X10.

- Police (Blue)**
- Police, button loop. #4521106 **\$27.75** each
 - Police, pin attachment #4521106P **\$27.75** each
 - Police, open ends, hook and eye closure. #4561106 **\$27.95** each
- Firefighter (Red)**
- Firefighter, button loop. #4521107 **\$24.75** each
 - Firefighter, pin attachment #4521107P **\$27.75** each
 - Firefighter, open ends, hook and eye closure. #4561107 **\$27.75** each
- Emergency Medical Services (Green)**
- EMS, button loop. #4521108 **\$24.75** each
 - EMS, pin attachment #4521108P **\$27.75** each
 - EMS, open ends, hook and eye closure. #4561108 **\$27.95** each

#4521107
Firefighter Cord: Black with Red center, button loop

#4561106
Police Cord: Black with blue center, hook and eye

#4521108
EMS Cord: Black with green center, button loop

#4521106
Police Cord: Black with Medium Blue center, button loop

The button loop-style (shown here) is designed to be worn with an epaulet that unbuttons. The open-end style with hook-and-eye closure is designed for epaulets that do not open. The wrapped pin attachment style can be worn on uniforms or shirts without epaulets or with epaulets that unbutton.

Badge Mourning Bands are shown on page 53.

Sam Browne Belts and Accessories 

So how did this classic duty belt get its name? British General Sir Samuel Browne (1824-1901) designed it after his left arm was severed during battle in India; the strap helped stabilize the belt for the one-handed drawing of a saber. Our Sam Brownes are made of top grain leather, 2 1/4" wide with panel stitching for beauty and durability. Plain black waist belts and shoulder straps are available half-lined, and fully lined with top and bottom stitching. Clarino (high gloss) belts and straps are fully lined with top and bottom stitching. The "D" rings on shoulder straps are sewn into belt when ordered together; if you buy the belt only, then later decide to add a shoulder strap, sliding "D" rings will be required to attach strap to belt. When selecting your size, remember to add at least 2" if the belt will be worn over a jacket. **Shoulder straps are made in proportion to belt size. When ordering shoulder straps separately, order by length.** If you need assistance in belt or strap measurements, please call, or visit www.paradestore.com/SamBrowne. Belts and straps are custom-made. Returns will be subject to a 15% restocking charge.

Patch Attach

Here's a quick and easy way to bond patches onto berets, jackets, and most fabrics without sewing! A hot iron makes it permanent and washable or dry cleanable. It's also non-toxic. Use it for beret flashes, military and police patches, varsity letters, and school patches. Patch Attach is not recommended for satins, nylon, leather, or fabrics that are thin, sheer, padded, insulated, or so delicate they cannot withstand heat. 1 oz.

- #3410 **\$7.95** each

Need a beret flash made to your specifications? Simply go to www.paradestore.com, and use our easy design template. You can also send a sample or detailed sketch. Turn to page 93 for more information. Minimum order for custom flashes is 50. Price quotation will be sent on inquiry.

To determine beret size: With a cloth measuring tape, measure completely around the head. Start 1" above the eyebrows and go around the largest point at the back of the head.

Instructions for cleaning wool beret:

Gently steam wool to deodorize it. Wipe the vinyl sweatband around the edges with a soft cloth and gentle cleaner. For best results, berets should be "professionally dry cleaned," which is a special cleaning process. Wool, satin, and vinyl will react differently to cleaning solvents. A competent dry cleaner can block the beret back to its original shape, if necessary. Glendale is not liable for dry cleaners' treatments.

Firefighter, Police & EMT Mourning Cords

This shoulder cord started a new tradition for funeral honor guards. Designed by a member of a police honor guard and, like all Glendale shoulder cords, handcrafted in the U.S. The button loop-style (shown here) is worn with an epaulet that unbuttons. The open-end style with hook-and-eye closure is worn with epaulets that do not open. The wrapped pin attachment style can be worn on uniforms or shirts without epaulets or with epaulets that unbutton. The funeral honor guard stands at attention – a mourning band covers each member’s badge — and each uniform displays a unique mourning shoulder cord. It’s a look that is both distinctive and respectful. **These cords generally have a 28” circumference.** They can be custom-made in two longer lengths. Add \$5 to the price for an additional 5” and \$8 for an additional 10”. Then, add the length to the number -- for example, #4521106X5 or #4561107X10.

Perfect-Fit Aluminum Poles

Two-Piece and Telescoping Styles

Precision-engineered to be incredibly lightweight and easy to handle, these beautiful poles are the choice of America's leading color guards and marching bands. Made from strong aluminum tubing with a rich gold anodized or bright silver mill finish, each two-piece pole has a base plug, a ring for attaching cord with tassels, and two adjustable rings to hold a flag tautly in place. The Telescoping Pole has an internal sleeve joint that forms a secure lock.

Competition Color Guard Checklist

For the color guard unit looking to be highly proficient in competitions, Glendale Parade Store enlisted the help of professional drill team trainers to determine the best gear for competition color guards!

After more than a decade of National Championship-winning excellence, this gear comes recommended by the top color guard instructor in the country, Edford Luckey, MSG, USA (Ret.) formerly of Alamo Heights High School in San Antonio, TX.

NOTE: This gear checklist does NOT apply to MCJROTC units who must drill in strict accordance with their service guidance.

Start with Poles and Toppers

Traditional Fit Two-Piece Aluminum Poles: see page 91

For male/mixed teams, select 8'x1 1/4".

#84S (Silver) or #84G (Gold)

For all-female teams, select 8'x1".

#81S (Silver) or #81G (Gold)

Aluminum poles add snap and pop to all your standing manual, ensuring your unit catches the judge's eye!

Round Spears are the BEST choice for uncasing/casing of the colors in competition due to their rounded edges!

Styrene Traditional Fit Round Spears see page 89

#85SC (Silver) or #85SG (Gold)

Traditional Fit 7" Army Spades see page 89

#22C (Chrome) or #22B (Brass)

Suitable for both National and Organizational/State colors!

You'll want the best carriers...

Leather Flag Carrier, Double-Harness with Plastic Cup

#1802BK (Black) or #1802WH (White) see page 84

The larger diameter and material of the cup ensures no misses and amazing audio to "WOW" the judges! Also available in Clarino high-gloss finishes!

Don't forget casings to protect the colors...

Canvas Flag Covers

#68 (Choose Your Color/Imprinting) see page 85

Choose from our wide variety of colors and imprint with lettering of your choice for a sharp look! These can be pressed and starched for crisp performance!

Each member will need a belt...

Military Police Belt #180 (Choose Your Color/Finish) see page 34

Easy to maintain and classy, these belts will compliment each of your color guard cadets! Make sure to get one for each member of your color guard!

Last but not least...

3x4 Un-Fringed American flag #0223 see page 99 and State Colors call for custom quote on state flags!

The 3x4 size ensures that flags do not hang in cadets' faces helping vision/alignment and displaying their amazing bearing to the judges! The shorter length means fewer cranks while uncasing/casing the colors! We recommend NO fringe for competition units, especially those uncasing/casing the colors!

Do you need rifles?

Check out our selection of competition-ready drill rifles on pages 4-14! While any of these rifles are suitable for competition, we recommend the DrillAmerica 1903 Springfield replica rifle for its sharp appearance and exceptional balance!

The National Museum of the United States Air Force™

Welcome to the oldest—and largest—military aviation museum in the world! Visitors to the National Museum of the U.S. Air Force on the Wright-Patterson Air Force Base near Dayton, Ohio are awed by the size and scale of this museum's offerings. Whether you are interested in the early pioneers of flight or the latest advances in space travel, the USAF has you covered.

Starting as a small engineering study collection in 1923, the National Museum of the USAF is now a world-renowned center for air and space power technology and culture preservation. The collection is simply stunning and includes more than 350 aerospace vehicles and missiles and thousands more one-of-a-kind artifacts.

The museum is home to countless one-of-a-kind objects. Our once small engine collection now includes more than 350 aerospace vehicles and missiles, thousands of artifacts, and covers 20 indoor acres. In addition to flight-related objects from our past, you'll find incredible sensory exhibits that connect the Wright brothers' legacy with today's precision technology. There are aircraft, engines, equipment and weapons of the USAF galore.

That's not all. You could spend an entire day touring the outdoor exhibits alone! The museum's Memorial Park honors Air Force-associated people and units for their past service and sacrifice in the cause of freedom. From the first memorial dedicated to Americans held as prisoners of war by the North Vietnamese and those missing in action during the Southeast Asia War in 1972, the park now contains than 620 memorials, including statues, plaques, trees and benches. In addition to the memorials, there is a replica 8th Air Force Control Tower like those used by the U.S. Army Air Forces and Royal Air Force units at various air bases in Great Britain, allowing air traffic control personnel to direct aircraft takeoffs and landings at the field. Next to the Control Tower, the Nissen Hut portrays a 1940s bar and briefing room of an Army Air Corps Fighter Escort Squadron stationed in England. Stepping inside is like stepping into WWII history!

Planning Your Visit

The National Museum of the United States Air Force is open 9 a.m. to 5 p.m., seven days a week with free admission and parking.

Klench Fasteners, brass #2162

Klench Fasteners, brass with protective clear back #2163

Klench Fasteners

Both fasteners have the same strong holding capability—the magic is in the urethane membrane. The fasteners with a clear back have a flexible protective back and will accept a longer pin backing on insignia, name tags and ribbon bars and hold them flush to the surface of the uniform. Neither will cause skin abrasion. Sold in a packaged set of 6.

Ribbon Mounts

Metal Ribbon Mounts

These contoured Uni-mounts are for standard metal ribbon mounts and right staggered ribbon mounts for the left collar. Single, Double and Triple mounts are made of brass, all other mounts are made of durable but lightweight stainless steel.

Standard Metal Ribbon Mounts **BEST SELLER!**

All ribbon holders are center mount and include clutches.

Right Staggered Metal Ribbon Mounts

These multiple ribbon mounts are staggered to fit around a lapel, so all ribbon awards will show. Includes clutches.

Standard Plastic Ribbon Mounts

Unlike metal mounts, these flexible mounts contour to the shape of the body. In fact, they will bend to 90° and still revert back to original shape. All ribbon holders are center mount and include clutches.

Air Force and Navy Ribbon Mounts - "0" spacing
 Army Ribbon Mounts - 1/8" spacing
 Marine Corps Ribbon Mounts - either "0" or 1/8" spacing

Meet the Chief Master Sergeant of the Air Force

Joanne S. Bass, the 19th Chief Master Sergeant of the Air Force, is focused on giving the men and women of today's Air Force the tools and skills they need to face the most challenging environments the force has ever faced.

An inspiring leader whose major awards include the Legion of Merit, Meritorious Service Medal with four oak leaf clusters and the Joint Service Commendation Medal among many, many more, Chief Bass enjoys meeting with Airmen in Training and Senior Enlisted leaders alike to define the challenges ahead and inspire every one of them to become an expert in their field of expertise.

"We need leaders at all levels who can think strategically, and execute tactically. To that end, I'm bringing you a reading list that will flex and evolve as we build the Air Force we need to compete, deter and win across all domains."

— Joanne S. Bass

Serving at the highest noncommissioned officer position, Chief Master Sergeant Bass is the personal adviser to the Chief of Staff and the Secretary of the Air Force on all issues regarding the welfare, readiness, morale, and proper utilization and progress of more than 600,000 men and women who serve in the force.

Metals and inserts you can be proud to give, these are produced from top quality materials carefully selected for their metal integrity. To display a more specific message, place an insert into the shield where the "V" or laurel leaf symbol is located. Unless noted, all are available in gold, silver, or bronze tone. Because these medals do not require additional inserts, prices for medals and inserts are separate.

 - Online: www.ParadeStore.com (Also a great way to learn more about us, subscribe to the "Bugler" newsletter or send us an e-mail.
 - By Mail: 12754 O'Connor Road San Antonio, TX 78233.
- (If a mailed order confirms a phone, fax, e-mail, or Web order, please mark it "CONFIRMATION" to avoid duplication.) Within TX, add 8.25% sales tax. If tax-exempt, notification must be included at time of order. Please make a note of your customer account number that appears above your name on the address label. Using it for each order or inquiry speeds response time! Order Processing: Most orders are processed and available items are shipped within 5 business days. (Refer to the UPS Ground Service map for time in transit.)

Back Orders:

Unforeseen demand or manufacturer's delays occasionally result in items that are out of stock. Nevertheless, it is our policy to ship all available merchandise and back order the balance unless customer specifies otherwise. There are no additional delivery charges for multiple shipments within the contiguous U.S.

Custom Orders: Please plan accordingly. Custom work may take 4 - 10 weeks for delivery. Submit specifications for custom work, including imprinting, embroidery and engraving in writing. Credit cards will be charged and items cannot be canceled once production has begun.

Prices:

Prices in this catalog are FOB San Antonio, TX effective August 1, 2023, and supersede all previously published prices. **We reserve the right to correct and change prices due to errors or frequent manufacturer increases.**

Payment Terms: Credit will be extended on authorized purchase orders of U.S. schools, military, police and fire units, and government agencies. Terms are Net 30 days. Visa, MasterCard, Discover, American Express and Impac/GPC/Smart Pay Visa orders are accepted. All other orders prior to shipment must be paid in full by check or money order to Glendale. Orders with declined credit cards will be canceled and are subject to a \$5 charge on reorders. When authorized, we will make partial shipments to meet customer deadlines; but partial invoices must be paid within our payment terms.

Colors:

We try to accurately reproduce all colors shown in this catalog, but some variation may occur due to the printing process. Reorders are best handled by sending a sample for us to match colors. We aim for consistency, but variation in dye lots may occur. Small fabric swatches are available for cords, berets and bib scarves.

Shortages or Damaged Goods:

Despite our quality assurance efforts, damages can occur in production or transit and order processing errors can be made. Please inspect all merchandise carefully. Call Customer Service at 1-800-653-5515 to report damages and claims. If a shipment is damaged in transit, it may be necessary for the carrier to inspect the shipment. Hold all cartons and packaging materials until you speak to us. We cannot accept responsibility for shortages or damages reported more than 48 hours after delivery.

Glendale Exclusives:

Glendale has created and developed many unique and exclusive items. We are the only source for these products and reserve the right not to sell them for resale. Retail sales only.

Suggestions:

We appreciate any suggestions, comments, criticisms, or questions you may have about our catalog, website, products, or service.

Guarantee:

We fully guarantee all merchandise against defects in material and workmanship.

Returns and Exchanges:

If there are any problems, please notify us immediately upon receipt of order. Merchandise must be returned only with prior authorization within 30 days of receipt in "as shipped" condition, including all original and retail packaging. We cannot accept returns of rifles, two-color cords, three-color cords, personalized items, DVDs or CDs, books, medals with inserts, custom orders or used or altered merchandise. A 15% restocking charge will apply to all Sabers & Swords as well as Sam Browne belts and straps.

Return items to: Glendale, Attn: Returns, 12754 O'Connor Road San Antonio, TX 78233.

- We will refund the purchase price for returned items.
- Original shipping charges are not refundable nor can they be credited unless shipment is Glendale's error. Only then will we pay return and/or replacement shipping charges.

Shipping Information:

All packages will ship UPS Ground or US Postal Service (USPS), whichever is more expedient. APO/FPO will be sent USPS Priority, and a receiver's signature will be required. UPS fees incurred for change-of-delivery address or address errors after package has shipped will be charged to customers.

Please Note:

For UPS Ground delivery, include a street address in shipping instructions. For all orders shipped by ground service within the contiguous United States, shipping charges are determined by the MERCHANDISE VALUE + any additional shipping surcharges for flag pole floor stands, rifle cases and drill bars.

Airliner Flag Carrying Case

Designed for frequent travel, this rugged case is called the "Airliner" for a reason! The innovative three-piece telescoping design extends from 48" to 88" and has a diameter of 5 1/2" to accommodate a mounted flag. This tough molded tube is lockable for secure travel and has a comfortable molded handle for easy carrying. Because it nests to only 48", it can easily be shipped by US Mail to overseas customers. Airline approved!

#65 **\$89.95** each (*\$10)

* There is a shipping surcharge for heavy items. The surcharge is in parentheses following the price. See page 81 for complete shipping information.

Flag Carrying Case

The perfect case for carrying or storing two poles up to 8 1/2" long or one mounted flag set with spear ornament. 4 1/4"-diameter tube telescopes from 60" - 102" and has protective foam padding at the top. Easy-to-load hinged door with padlock eyes. Please note: This case is oversized and can only be shipped by UPS Ground or Parcel Select.

Imprinted Canvas Flag Covers

Letters available in 2", upper case only. All orders for imprinting must be submitted in writing to avoid misprints. Email us at customerservice@glendale.com. Cover will be printed horizontally (as shown) with up to 25 characters/spaces. If a vertical design is needed, only 20 spaces are available. No punctuation marks.

Step One—choose cover color :

Navy - #68NV, Red - #68RD, Royal - #68RY, Black - #68BK, Green - #68GR

Step Two—choose direction of printing:

Horizontal - HI, Vertical - VI

Step Three—choose the color for the lettering:

White - WH, Gold - GO, Red - RD, Black - BK

Step Four—choose the number of letters

A: 1-6 (vertical or horizontal) **\$45.95** each

B: 7-13 (vertical or horizontal) **\$49.25** each

C: 14-25 (Horizontal only) **\$63.25** each

Step Five—put it all together. The code for a navy flag cover, with horizontal printing, white lettering, and 15 letters would be #68NV HI WH C.

Nylon: This high-quality fabric exceeds stringent U.S. Government specifications. It is the most popular flag material and offers both durability and beauty. Outdoor flags have strong canvas headings and brass grommets. Indoor flags are

finished with flannel-lined pole hems, Velcro® tabs, and golden yellow rayon fringe. A single seal flag is correct on one side; reverse on the other. A double seal flag reads correctly on both sides. Double seal flags 4 1/3" x 5 1/2" and

larger will have the branch of service seal appliquéd onto the larger background. The lining of double sided flags is heat sensitive. Do not press.

Choosing Outdoor U.S. flags:

Glendale is proud to present a selection of outdoor flags designed to stand up to the varying weather conditions in which they fly. All styles are made with strong canvas heading and grommets for display on outdoor flag poles:

Polyester

The most durable flag fabric you can buy. Engineered for industrial, commercial and institutional use. (As with all flags, improper flag care, high winds, high temperatures and other environmental conditions that vary due to climate and location can reduce the fabric life.)

Nylon

Nylon is the most popular flag material. It is lightweight, holds dye well and can stand up to extreme conditions. Nylon flags can be recycled.

Cotton

An excellent quality flag made of extra-strength cotton weave bunting with rich colors that are resistant to sun and rain, making it suitable for a wide range of applications.

How long will a flag last?

The U.S. government generally expects a nylon or cotton bunting flag to last approximately 90 days, based on daily usage from sunrise to sunset — but not during periods of inclement weather. Tests have shown that in some cases a flag flown 24 hours a day will last only one-fourth as long as one flown during the daylight hours only. Regardless of how well it is constructed, a flag is, after all, only a piece of cloth and will sooner or later succumb to the elements. However, it has been well documented that reasonably good care can contribute greatly to longer life.

Government Spec U.S. Flag #4322

Government-Spec Outdoor Display U.S. Flags

Made to U.S. government specifications in accordance with U.S. Code, Title 4, in the official government size (1:1.9) hoist fly ratio. Choose from high-tenacity, industrial strength-70 denier lightweight nylon or 2-ply mercerized cotton bunting. Heavy canvas duck heading is constructed to government specs. Lock-stitched seams, material and color-matched thread. Stars are 3/4".

Appropriate flag sizes for outdoor poles:

Length of flag should be approximately 1/4 of the height of the flagpole:

20' pole - 3' x 5' flag.

25' pole - 4' x 6' flag.

40' pole - 6' x 10' flag.

A second flag flown under the U.S. flag should be one size smaller than the U.S. flag.

Choosing Indoor & Parade U.S. flags

Nylon

Very durable. Made of high quality nylon that exceeds stringent U.S. Government specifications. High-gloss, densely embroidered stars. Lock-stitched, hand-sewn stripes and hems. Finished with flannel-lined pole hems, Velcro® tabs and, if requested, golden yellow rayon fringe.

Bemberg Rayon

The finest, most luxurious flag fabric available. Woven of heavy Bemberg rayon, this flag combines a beautiful appearance with superior form retention. A particular favorite of the federal government. Features large embroidered rayon stars. Finished with a flannel-lined pole hem and Velcro® tab. Available with golden yellow rayon fringe. Note: this fabric may stain if it gets wet.

Recommended sizes

3' x 5'	8'	5" & 9'
4' x 6'	9'	5" & 9" or 6" & 9'

Flag Spreader

The center part of this spreader snaps around an indoor pole, and the ends clip to the sides or to both corners at the bottom edge of the flag – holding an indoor flag open, so more of it can be seen when it's draped.

4' x 6' mounted flag set. Includes 4' x 6' fringed nylon flag (#0216), 9' x 1 1/4" wood pole with dark oak finish (#94W), brass-plated eagle with 7" wing span (#7A), 6" golden tassels with 9' cord (#119) and 8 lb. gold Liberty Floor Stand (#LG8) **\$379.95** each #46US94W

How to mount an indoor flag:

On aluminum poles – Pull out the Velcro® tabs inside the top and bottom of the pole hem. Loosen the set and eye screws of the aluminum ring, slide it down the pole, and position it where it will hold the bottom tab of the flag. Carefully slide top of pole up through the flag's pole hem. Attach the ornament to the top of the pole. Slip tab button holes over the eye screws of both the ornament and ring. Adjust aluminum ring so that pole hem is taut and tighten screws against pole. Instead of attaching tabs to the eye screws, Velcro® tabs can be more permanently fixed directly to the pole. Remove the adhesive backings, position the flag and press the sticky sides of the tabs to the flag pole.

On wood poles – No bottom ring is required. Top Velcro® tab may be attached to the eye screw of the ornament or the adhesive side may be affixed directly to the flag pole.
